

## Factsheet of Student Figures, 2025/26: Introduction

Our factsheet presents summaries for all students who were matriculated during the session; in session 2025/26, some 48,820 students were matriculated. By the end of the session many of our students had successfully completed their studies, some had interrupted their studies, and a small minority (just over 1%) had withdrawn without an award.

**48,820**  
*students  
in total*

During the session our peak count of matriculated students was 44,610 at the end of November 2025; semester 2 peaked at 44,275 at the end of January 2026. Some 1,265 visiting students and 980 postgraduate students had left by the end of semester 1, whilst other visiting students and postgraduate students joined us during semester 2.

**44,610** *semester  
1 peak*

**44,275** *semester  
2 peak*

At any given time some matriculated students are studying away from the University campus, on placements, study abroad, or online learning programmes. Our peak count of matriculated students on campus was 38,565 at the end of October 2025 in semester 1.

**38,565**  
*on campus  
peak*

Readers familiar with statistics provided by [HESA](#), the Higher Education Statistics Agency, should note that compared to our total of 48,820 the HESA “Standard Registration Population” definition would typically exclude most of the students in these categories contained within our total:

2,900 were visiting or exchange students (incoming visiting)

2,800 were postgraduates writing up

2,885 were non-UK online learning students

*(HESA data for session 2025/26 are not yet available)*

---

### Notes:

- In line with best practice for data protection our factsheet figures are rounded to the nearest 5 (counts of 1 or 2 are rounded to zero). The sum of the rounded row or column contents shown, may not always be equal to the rounded totals shown because all figures, including the totals, are calculated first and then rounded. Each total is a consistent representation of the underlying figure.
- Within the figures shown are 295 PGDE (Professional Graduate Diploma in Education) students, categorised as Taught Postgraduates. Factsheets up to 2017/18 categorised these students as Undergraduates. The PGDE, MSc Transformative Learning and Teaching, and MN(T) Nursing programmes are funded at the undergraduate rate, but they are postgraduate programmes and it is appropriate to describe them as such in the context of general purpose statistics.

## STUDENT FIGURES

### Notes and definitions

1. This report represents all students who are or have been matriculated during the session indicated, as of the snapshot date. It includes all matriculated students with the exception of those who within 5 weeks of Semester 1 commencing either withdrew, interrupted or completed their studies. The filter is applied in order to be consistent with the approach of the Scottish Funding Council in that regard.

2. Sabbatical students currently serving a year as EUSA student representatives are excluded from these figures. The figures include full-time and part-time study of all kinds including those studying on distance learning, collaborative or modular programmes, interrupted, dormant, or visiting students and students who are writing up. Lifelong learning students who are studying for credit are included. PGDE students are categorised "Taught Postgraduate" not "Undergraduate".

3. Domicile on entry groupings refer to the student's area of permanent residence prior to commencing their studies; this information is declared by the student at first matriculation.

4. Figures are rounded to the nearest 5 to comply with data protection requirements. Counts of 1 or 2 are rounded to zero. The totals shown are rounded in their own right and thus do not always match the sum of the rounded row or column contents.

**Notes and definitions**

1. This report represents all students who are or have been matriculated during the session indicated, as of the snapshot date. It includes all matriculated students with the exception of those who within 5 weeks of Semester 1 commencing either withdrew, interrupted or completed their studies. The filter is applied in order to be consistent with the approach of the Scottish Funding Council in that regard.

2. Sabbatical students currently serving a year as EUSA student representatives are excluded from these figures. The figures include full-time and part-time study of all kinds including those studying on distance learning, collaborative or modular programmes, interrupted, dormant, or visiting students and students who are writing up. Lifelong learning students who are studying for credit are included.

3. Domicile on entry groupings refer to the student's area of permanent residence prior to commencing their studies; this information is declared by the student at first matriculation.

4. Some totals may vary as all figures have been rounded to the nearest 5 to comply with data protection requirements. The methodology used is the same as that used by HESA; all figures are rounded to the nearest 5 with 1 and 2 rounded to zero.

**Notes and definitions**

1. This report represents all students who are or have been matriculated during the session indicated, as of the snapshot date. It includes all matriculated students with the exception of those who within 5 weeks of Semester 1 commencing either withdrew, interrupted or completed their studies. The filter is applied in order to be consistent with the approach of the Scottish Funding Council in that regard.

2. Sabbatical students currently serving a year as EUSA student representatives are excluded from these figures. The figures include full-time and part-time study of all kinds including those studying on distance learning, collaborative or modular programmes, interrupted, dormant, or visiting students and students who are writing up. Lifelong learning students who are studying for credit are included. PGDE students are categorised "Taught Postgraduate" not "Undergraduate".

3. Domicile on entry groupings refer to the student's area of permanent residence prior to commencing their studies; this information is declared by the student at first matriculation.

4. Some totals may vary as all figures have been rounded to the nearest 5 to comply with data protection requirements. The methodology used is the same as that used by HESA; all figures are rounded to the nearest 5 with 1 and 2 rounded to zero.
